

# PROACTIVE DDoS MITIGATION SERVICE

## PROTECT YOUR BUSINESS WITH PROACTIVE DDoS MITIGATION

Arvig's Proactive Distributed Denial of Service (DDoS) Mitigation Service offers protection against the threat and impact of a broad range of DDoS attack types. These attacks attempt to make a service or network unavailable to its intended users. Our DDoS Protection Service discards attack traffic before it reaches your infrastructure while allowing legitimate traffic to continue to its destination.

### DDoS Features:

- + Protection against evolving attack vectors including volumetric, protocol and application
- + Automatic Protection
- + 24/7/365 support
- + Leading DDoS mitigation technology
